

OPEN-SIGHT™ Vision Fixture Plates

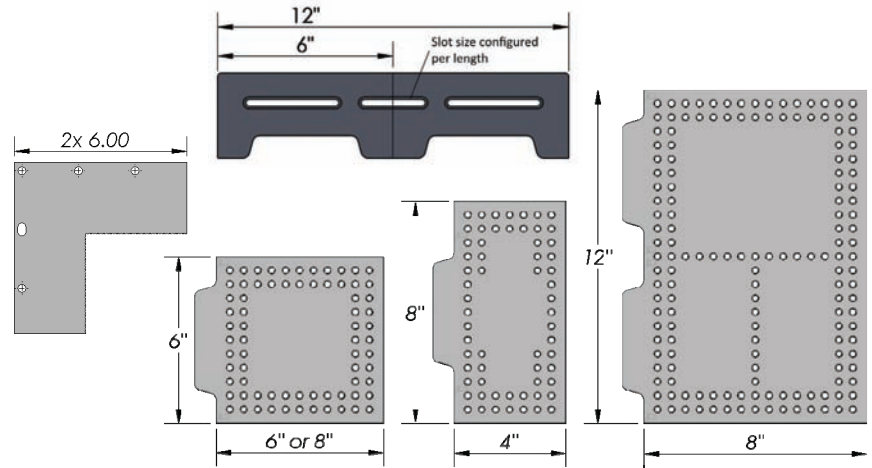

The same LEAN fixture concept is available for Vision systems. OPEN-SIGHT™ Docking rails fit the stage of any optical machine. Docking rails are black anodized aluminum. Clear, polycarbonate plates—rails and plates are .5" thick, 1/4-20" holes, .5" hole spacing.

- **Durable, scratch-resistant** polycarbonate plates;
- Leveling **feet** available.
- **Interchangeable** with our LOC-N-LOAD™ aluminum plates.
- More **open viewing area**. Or order blank plates to customize.
- Dedicate a plate to **gauging** for fast re-calibration.

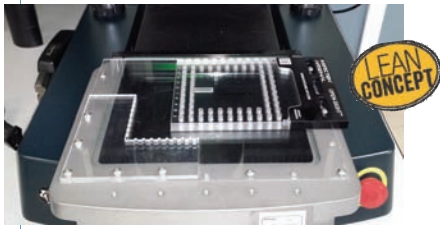

Aluminum Docking Rails and Polycarbonate Plates

Part #	Description	Price
OS-CORNER-66	Corner Block 6 X 6"	\$190

OPEN-SIGHT™ Vision Bundled Systems

VISION KIT (27 pcs) — \$497
VIS-KIT-01 (1/4-20)
VIS-KIT-01M (M6)

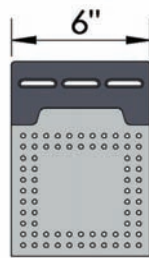

Dedicate a plate for gauging.

Choose 6" or 12" combination with:
 1 Docking Rail, 1 Open-Sight™ Plate,
 plus Vision Kit.

Add docking rails on sides of stage to
 create more "locations" for inspection.

Order blank plates and add only holes
 you need for greater savings.

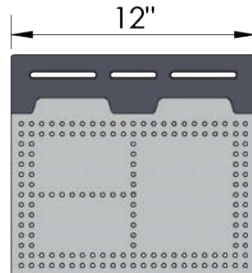

Inquire about Metric orders.
