

Inspection Arsenal® Work-Holding Kits

- Starter Kit
- Complete Kit
- The Works Kit

Inspection Arsenal® work-holding includes a variety of unique and versatile components designed to create fast, easy and repeatable setups. Components include quick-swap trigger-action, low-profile and non-marring clamps and hold downs; **Trigger-Finger™**, **Cross-Bow™**, **D-Block™** and **Trigger-Point™**. Heavy duty lever clamps provide additional force when necessary.

Stand-offs and risers include traditional and articulating styles and magnetic rest pads and risers. Round parts can be held with v-blocks or **Silver-Bullet™** stand-offs and hole adjusters provide infinite adjustability between holes.

Low-profile stops and rails include **Simple-Stop™**, **Sliding-Stop™**, and vision corner stops.

Components are sold in 2 kit combinations here; in sets (Page 15), and individually (Pages 16-17).

- 1/4-20 or M6 threads
- Plus 55 foam drawer inserts included with all kits

Starter Kit: 62 pcs.

Inch: TR-KIT-03

Metric: TR-KIT-03M

Complete Kit: 82 pcs.

Inch: TR-KIT-02
