METROLOGY SOLUTIONS

5006 Electronic Groove Caliper

For Inside Grooves   For Outside Grooves
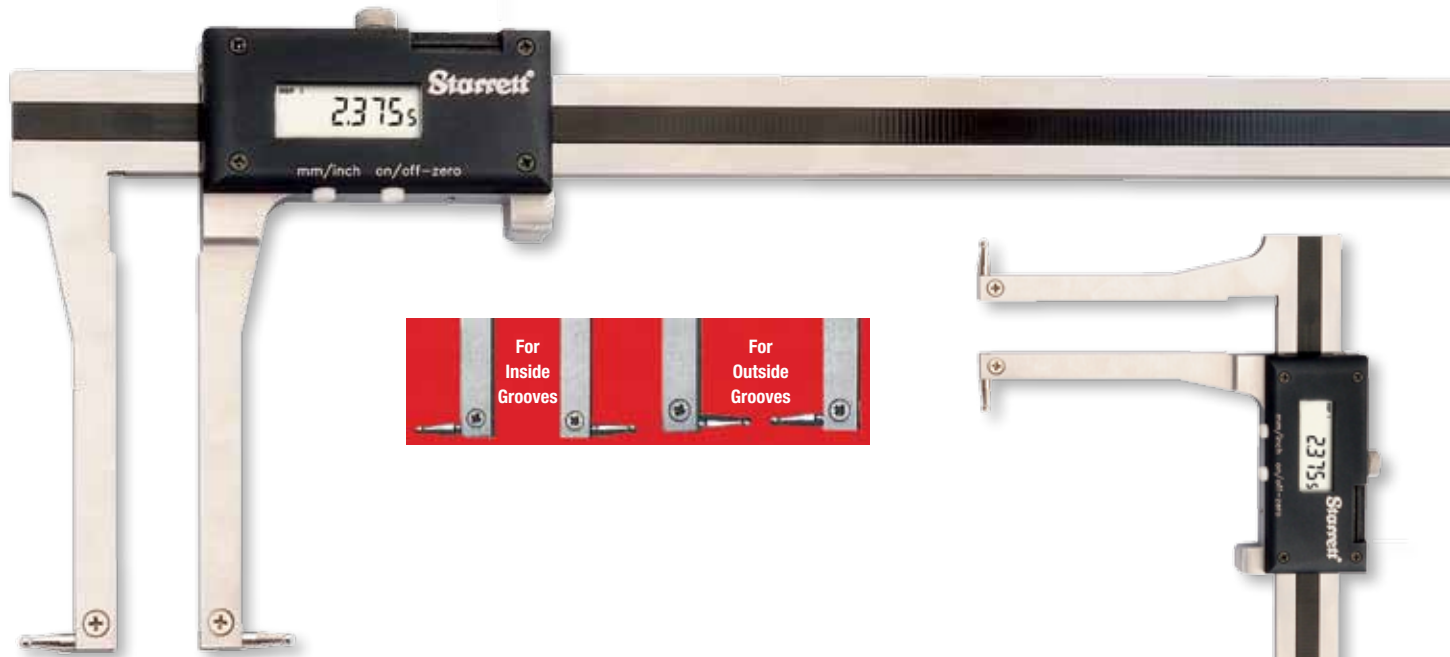

The 5006BZ-14/350 Electronic Groove Caliper is ideal for measuring internal and external grooves on large workpieces. This caliper is made of hardened stainless steel and is coolant resistant. With RS232 output, it is compatible with Starrett DataSure® Wireless Data Collection Systems, which eliminates output cables.

Features & Specifications

- Resolution: 0.0005"/0.01mm
- Standard Measuring Tip Diameter: .118", 3mm
