

KMR VIDEO INSPECTION SYSTEMS

KMR

KMR video measurement and inspection systems are a family of four versatile and affordable inspection and vision metrology systems. They are ideal for receiving inspection, quality assurance, training, manufacturing, assembly, research, and documentation – wherever easy setup and a range of magnifications are required. Depending on the size of the parts to be measured, measurements can be all electronic within the field of view, or be integrated with stage motion for parts up to 8" (200mm).

FEATURES AND SPECIFICATIONS

- Metlogix™ M3 software including Digital Comparator (DC)
- Color digital video camera
- PC with 24" touchscreen monitor
- LED ringlight and substage illumination
- Screen resolution 1920 x 1080
- Video edge detection
- Equipped with 6.5:1 zoom lens or choice of 0.14x, 0.3x, 0.5x, or 1.0x telecentric lens
- Auxiliary lens options of 0.5x, 0.75x, 1.5x, 2x for use with 6.5:1 zoom option

Our KMR systems line provide high performance for low cost. These machines are simple to operate without compromising performance.

With six models to choose from, we can customize to your specific needs.
